

INVITATION

You are invited to a presentation from visiting academic Professor Tom Welton, Dean of the Faculty of Natural Sciences at Imperial College London and the world's first Professor of Sustainable Chemistry.

Professor Welton was Head of the Chemistry Department at Imperial College London from August 2007 to December 2014, during which time the Department achieved an Athena SWAN Gold Award.

PRESENTATIONS

Colleagues from institutions in the SAGE Regional Network Queensland will attend these presentations.

Session One – open to university staff in STEM

Thursday 19 January – 10:30am-11:30am

Professor Tom Welton will speak about the Athena SWAN experience generally and the work done in the Chemistry Department at Imperial College on valuing diversity and enabling all of the department's members to reach their full potential, regardless of who they are.

A light lunch will be provided for both sessions – 11.30am-12:00pm

Session Two – open to Self-Assessment Team members and senior staff

Thursday 19 January – 12:00pm-1:30pm

A workshop session with Professor Tom Welton that will cover the challenges and opportunities of applying, including: data analysis; the written application; and engaging leaders in the process. Participants will be actively involved in the discussion.

Date: Thursday 19 January 2017

Venue: [QUT Gardens Point campus](#)
GP-Z-Gibson Room (Z1064)

Time: Session One 10:30am-11:30am
Session Two 12:00pm-1:30pm
(a light lunch will be provided for both sessions – 11.30am-12:00pm)

RSVP: By Monday 16 January 2017 to suzanne.mchugh@qut.edu.au
(advising session/lunch/dietary requirements)
